1.4 all personal or movable property, fixtures, inventory, rolling equipment, and improvements located on or used in connection with the operation of the Properties and the

Easements, or with the production, treatment, sale, or disposal of the Hydrocarbons and byproducts or waste produced from the Hydrocarbons or attributable thereto, including all wells (whether producing, shut in or abandoned, and whether for production, injection or disposal), wellhead equipment, pumps, pumping units, flowlines, gathering systems, interests in processing plants, platforms, pipelines, piping, tanks, buildings, boat docks, treatment facilities, injection facilities, disposal facilities, compression facilities, spare parts, tools, production units, heaters, separators, dehydrators, tank batteries, abandoned property, all surplus materials, stocks and inventory, including without limitation surplus materials, stock and inventory located at shore base docks and yards, and all other materials, supplies, equipment, facilities and machinery;

The fact that some types of properties or interests are included in more than one of the foregoing clauses 1.1 through 1.7 above or are included in any supplemental assignment between the parties is not intended in any way to limit the effect of the more general descriptions nor to create multiple conveyances of the same item of property.

WITHOUT LIMITING THE GENERALITY OF THE TWO PRECEDING SENTENCES, ASSIGNEE ACKNOWLEDGES THAT ASSIGNOR HAS NOT MADE, AND ASSIGNOR HEREBY EXPRESSLY DISCLAIMS AND NEGATES, AND ASSIGNEE HEREBY EXPRESSLY WAIVES, ANY REPRESENTATION OR WARRANTY, EXPRESS, IMPLIED, AT COMMON LAW, BY STATUTE OR OTHERWISE, RELATING TO (a) PRODUCTION RATES, RECOMPLETION OPPORTUNITIES, DECLINE RATES, OR THE QUALITY, QUANTITY OR VOLUME OF THE RESERVES OF HYDROCARBONS, IF ANY, ATTRIBUTABLE TO THE ASSETS, (b) THE ACCURACY, COMPLETENESS OR MATERIALITY OF ANY INFORMATION, DATA OR OTHER MATERIALS (WRITTEN OR ORAL) NOW, HERETOFORE OR HEREAFTER FURNISHED TO ASSIGNEE BY OR ON BEHALF OF ASSIGNOR, OR (c) THE ENVIRONMENTAL CONDITION OF THE ASSETS. ASSIGNOR EXPRESSLY DISCLAIMS AND NEGATES, AND ASSIGNEE HEREBY WAIVES, AS TO PERSONAL PROPERTY, EQUIPMENT, INVENTORY, MACHINERY AND FIXTURES CONSTITUTING A PART OF THE ASSETS (i) ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, (ii) ANY IMPLIED OR EXPRESS WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE, (iii) ANY IMPLIED OR EXPRESS WARRANTY OF CONFORMITY TO MODELS OR SAMPLES OF MATERIALS, (iv) ANY IMPLIED OR EXPRESS WARRANTY OF FREEDOM FROM DEFECTS, WHETHER KNOWN OR UNKNOWN, (v) ANY AND ALL IMPLIED WARRANTIES EXISTING UNDER APPLICABLE LAW, AND (vi) ANY IMPLIED OR EXPRESS WARRANTY REGARDING ENVIRONMENTAL LAWS, THE RELEASE OF MATERIALS INTO THE ENVIRONMENT, OR PROTECTION OF THE ENVIRONMENT OR HEALTH, IT BEING THE EXPRESS INTENTION OF ASSIGNEE AND ASSIGNOR THAT THE PERSONAL PROPERTY, EQUIPMENT, INVENTORY, MACHINERY AND FIXTURES INCLUDED IN THE ASSETS SHALL BE CONVEYED TO ASSIGNEE, AND ASSIGNEE SHALL ACCEPT SAME, AS IS, WHERE IS, WITH ALL FAULTS AND IN THEIR PRESENT CONDITION AND STATE OF REPAIR AND ASSIGNEE REPRESENTS TO ASSIGNOR THAT ASSIGNEE HAS MADE OR CAUSED TO BE MADE SUCH INSPECTIONS WITH RESPECT TO SUCH PERSONAL PROPERTY, EQUIPMENT, INVENTORY, MACHINERY AND FIXTURES AS ASSIGNEE DEEMS APPROPRIATE. 2.2 Subrogation. Assignor hereby transfers and assigns unto Assignee, its successors and assigns, all of its rights under and by virtue of all covenants and warranties pertaining to the Assets, express or implied (including, without limitation, title warranties and manufacturers', suppliers' and contractors' warranties), that have heretofore been made by any of Assignor's predecessors in title, or by any third party manufacturers, suppliers and contractors (the "Prior Covenants and Warranties"). This Conveyance is made with full substitution and subrogation of Assignee, its successors and assigns, in and to and under and by virtue of the Prior Covenants and Warranties and with full subrogation to all rights accruing under the statutes of limitation, prescription and repose under the laws of the applicable jurisdictions in relation to the Assets and all causes of action, rights of action or warranty of Assignor against all former owners of the Assets. Assignor makes no representation, warranty or guarantee regarding the existence, extent or validity of any such covenants, warranties or subrogation rights.

### ARTICLE III MISCELLANEOUS

#### 3.1 Further Assurances.

(a) Assignor has executed and/or will execute separate assignments of individual oil, gas and mineral leases or interests therein that are included in the Assets for filing with certain governmental entities or agencies. In addition to such assignments (without creating any additional covenants, warranties or representations of or by Assignor), Assignor covenants and agrees to execute and deliver to Assignee all such other and additional assignments, instruments and other documents and to do all such other acts and things as may be necessary more fully to vest in Assignee record title to all of the Assets and the respective properties, rights and interests herein and hereby granted or intended to be granted, and to put Assignee in actual possession of all of the Assets to the same extent as Assignor was theretofore in, or was theretofore entitled to be in. Such separate or additional assignments: (i) shall not modify any of the terms and covenants herein set forth and shall not create any additional warranties, representations or covenants of or by Assignor to Assignee; (ii) shall be deemed to contain all of the terms and provisions hereof, as fully and to all intents and purposes as though the same were set forth at length in the separate assignments; and (iii) to the extent required by law, shall be on forms prescribed, or may otherwise be on forms suggested, by the appropriate governmental entities and agencies. In the event any term or provision of any separate or additional assignment should be inconsistent with or conflict with the terms or provisions of this Conveyance, the terms and provisions of this Conveyance shall control and shall govern the rights, obligations and interests of the parties hereto, their successors and assigns. Such separate assignments and this Conveyance shall, when taken together, be deemed to constitute the one assignment by Assignor to Assignee of all of the Assets.

(b) Assignor and Assignee agree to prepare and file with the appropriate licensing and permitting authorities applications for the transfer or issuance, as may be necessary or advisable in connection with the transfer of the Assets, of all material governmental licenses and permits required for the Assignor and Assignee to operate their respective businesses after the Effective Date and Assignor and Assignee agree to cooperate and use commercially reasonable efforts to secure the transfer or issuance of any such licenses and permits.

(c) Assignor serves as operator of certain Properties. From time to time, Assignor and Assignee may agree to appoint Assignee to succeed Assignor as operator of all or any portion of such Properties and both parties agree to cooperate to make all filings and give notice to and obtain consents from all third parties that may reasonably be required to cause Assignee to succeed Assignor as operator of any of the Properties (both of record and under contractual arrangements).

(d) Assignor and Assignee agree to provide the other party with such cooperation and information as may be reasonably requested by the other in connection with the preparation or filing of any governmental report or filing, or in conducting any governmental proceeding ongoing as of the Effective Date, relating to the Assets or the business of Assignor prior to, on or after the Effective Date.

(e) Assignor and Assignee agree to use their commercially reasonable efforts to cause the Assets to remain subject to the liens and encumbrances and mortgages on Assignor's assets under its amended and restated credit facility (the "Credit Facility") dated September 28, 2004 among Assignor and JP Morgan Chase Bank and the other agents and lenders party thereto and Assignee agrees to execute and deliver a Subsidiary Guaranty (as defined in the Credit Facility) as may be requested by Assignor in exchange for good and valuable consideration the receipt of which is hereby acknowledged; provided that Assignor, in its sole discretion, may elect to terminate or release the liens and encumbrances on the Assets or substitute its own assets for all or any portion of the Assets subject to the liens and encumbrances granted in favor of the lenders under the Credit Facility. Further, without the prior consent of Assignee, from and after the Effective Date, Assignor shall not renew or extend the term of the Credit Facility unless the liens and encumbrances on the Assets under the Credit Facility are thereupon terminated.

3.2 Approval. The assignment and conveyance of the Assets set forth herein, insofar as it affects any interest in leases or pipeline rights-of-way or other Assets the transfer of which must be approved by any governmental entity or agency, is made and accepted subject to the approval of the appropriate governmental entity or agency and to the terms of such approval, if and to the extent required by law.

3.3 Assumption. Assignee expressly assumes all of Assignor's obligations relating to the Assets, including, without limitation;

(a) leases, operating agreements, unit agreements, right-of-way agreements and all other contracts;

(b) any liability or obligation whether absolute or contingent, matured or unmatured, accrued or unaccrued, known or unknown, whenever arising, whether or not the liability or obligation would be properly reflected on a balance sheet, to the extent attributable to the operation of the Assets;

(b) liabilities arising from any soil or water contamination, other types of environmental damage or contamination, or other consequences of releases of hazardous materials in, on or migrating from the Assets;

(c) liabilities arising from any legal obligation to plug, abandon, remove, or otherwise retire (i) all real or immovable property, including without limitation, all platforms, pipelines and improvements located on or situated on, or related to, or used in connection with the Properties; (ii) all equipment, personal or moveable property, fixtures and improvements located or situated on, or necessary in connection with the operation of the Properties, Easements and other Assets, including without limitation all wells (whether producing or shut-in and whether for production, injection or disposal), flowlines, gathering systems, processing plants, piping, tanks, buildings, boat docks, treatment facilities, injection facilities, disposal facilities, compression facilities, production units, tank batteries; or (iii) any other Asset;

but excluding any federal, state, or local taxes, including but not limited to income, excise, property, sales, use, license, capital stock, transfer, franchise, payroll, withholding, social security, value added or other taxes, including any interest, penalties or additions attributable thereto (which will be governed by a separate tax sharing agreement between Assignor and Assignee).

3.4 Counterparts. This Conveyance may be executed in any number of counterparts, and each counterpart hereof shall be deemed to be an original instrument, but all such counterparts together shall constitute but one conveyance. Assignor and Assignee have each retained a counterpart of this Conveyance with complete exhibits.

3.5 Successors and Assigns. This Conveyance, and the other assignments contemplated by Section 3.1 above, shall bind and inure to the benefit of Assignor and Assignee and their respective successors and assigns. Any successor or assignee to any rights, title or interest of Assignee in and to the Assets shall be deemed, by its acceptance of such rights, title or interest, to have become jointly and severally liable for the obligations of Assignee pursuant to Section 3.3 above that relate to such Assets. No transfer by Assignee of any rights, title or interest in and to the Assets shall relieve, release or diminish Assignor's obligations pursuant to this Conveyance or the other assignments contemplated by Section 3.1 above in respect of the Assets.

3.6 Exhibits. Reference is made to all Exhibits attached hereto and made a part hereof for all purposes. References in such Exhibit to instruments on file in the public records are made a part hereof for all purposes.

3.7 Governing Law. This Conveyance and the other assignments contemplated by Section 3.1 above, shall be governed by and construed in accordance with the laws of the State of Colorado; provided, however, insofar as it affects title to real or immovable property or its application is otherwise mandatory pursuant to applicable law, this Conveyance shall be governed by and construed in accordance with the laws of the State of Alaska, in each case, excluding any conflicts-of-law rule or principle that might refer same to the laws of another jurisdiction.

IN WITNESS WHEREOF, Assignor and Assignee have executed this Conveyance as of the date of their respective acknowledgements below, but effective for all purposes as of the "Effective Date".
